

MFR-1616
MFR-1616R
MFR-3216/3216RPS
MFR-3232/3232RPS
MFR-GPI

SERIAL port setting notes

The SERIAL port is set to RS-232C as the factory default setting.

To change to RS-422, please see the operation manual.

- ◆ **To change the SERIAL port setting of MFR-1616 / MFR-1616R / MFR-3216 / MFR-3216RPS / MFR-3232 / MFR-3232RPS**

See RS-232C / RS-422 Selection in the operation manual.

- ◆ **To change the SERIAL port setting of MFR-GPI**

See Switches on the Internal Board in the operation manual.
